

Vote Safe and a Little More in 2024

Using the EIPCa HOTLINE – Nov. 2024 General Election

By now EIPCa is optimistic that ALL of you who possibly can are making plans to do some election season observing at the ballot processing center, drop boxes and/or the polls in your county.

If you are not yet convinced how valuable and necessary Citizen Observers are, PLEASE go back to [previous Vote Safe articles](#) and read/re-read them. Use the same link to get a sneak preview of the articles yet to come.

Engaged, knowledgeable citizens integrated into the functioning of the process that belongs to and serves them are an indispensable necessity to maintain fair, honest, transparent and valid elections.

EIPCa is making your involvement comfortable and easy through our Vote Safe articles and our other [Citizen Observer Education materials](#).

We also provide you with in-the-field support in the form of an **EIPCa HOTLINE**.

To make using the EIPCs HOTLINE successful, follow these easy guidelines:

When you need clarification regarding laws, regulations or procedures:

1. First, review the appropriate Vote Safe article(s) to see if you can find the answers there.
2. Next, if need be, **reach out VIA TEXT** to your assigned HOTLINE as listed in the [EIPCa HOTLINE document](#). Include:
 - a. Name
 - b. County
 - c. Brief description of the question or issue
 - d. Location you are observing
 - e. Phone number.
3. If the matter is urgent and you get no response within 10 minutes, **CALL** the HOTLINE number.

4. Last resort for URGENT issues - **TEXT the statewide HOTLINE number** and include the same information requested above.

We are here to support you as you serve the Republic.

Citizens involved in every aspect of the election process produce a healthy Republic. Without citizen oversight, Republics are soon lost.

**Freedom is only one generation away from extinction.
Let us not be that generation.**
